

# SELF-SEAL PAPER

Tenza Self-Seal also comes as corrugated rolls, offering extra protection for a wide variety of applications.

- A quick, simple, encapsulating product to package a wide variety of goods.
- Ideal for eCommerce.
- Coated with natural rubber latex, cohesive materials only stick to itself and not the contents of the package.
- Simple pressure by hand is all that's needed to create a quick wrapping or complete encapsulation of a product.
- Reduce packaging waste with self seal paper.
- Make your own mailers with this cohesive product.
- Tape and staple free.
- Perfect for books and other non breakable retail products.
- Corrugate can be used to replace foam padding on items such as books, bicycle handles and furniture parts.
- Ideal for clothing, soft goods and non standard shaped products.

**Sustainable and Versatile Paper Protection and Packaging. The cohesive coating leaves no residue and will not stick to your products, bonding instantly with no heat or pressure.**

Applying Tenza® Self Seal Paper is both quick and easy:

Unroll

Tear Off

Position

Turn Over

Press On

Label
